

Aetna Pediatric Dental

Small Group Market

- Aetna's pediatric dental benefit is embedded in the medical and is not able to be removed from the product.
- You won't see an additional charge in the rates.
- This benefit will kick in after you have met your medical deductible and will vary based on medical plan in force.
- The National Dental PPO network will apply to pediatric dental benefits regardless of the base medical product's network.

Individual Market

- The individual pediatric dental product is built into the medical plan and it can't be removed.
- However, like on the group side, you won't see an additional charge for it.

If you have any questions or concerns, please contact brokersupport@martinins.com
