

Horizon BCBS of NJ Pediatric Dental

Small Group Market

- Horizon will be automatically enrolling all new members in pediatric dental. Existing members will be enrolled upon renewal.
- The product is standalone and can be removed at either the individual member or group level.
- To remove the coverage at the group level, submit a letter on company letterhead. Please note that once you remove the coverage, you cannot put it back on until the group's next renewal.
- If an individual member is opting out of pediatric dental coverage, you must submit a completed, signed enrollment application for each applicable member. Write "remove pediatric dental" across the top of the application, don't check the remove box.
- Dependents over age 19 and contracts with no dependents will receive ID cards and booklets, but will not be charged a premium and will not have access to dental benefits.

Individual Market

- If you have compliant dental coverage elsewhere, you can remove this coverage on the individual application.
- If a contract has no enrolled members under age 19, there will be no premium charged or benefits provided.
- The rate for the Young Grins Individual SAPD is \$24.97 per child under the age of 19 (up to three children).

If you have any questions or concerns, please contact brokersupport@martinins.com
